PHYSIOWALL 454

The basis of training therapy/KGG

Wall bars and special dumbbells

The wall bars serve as a versatile and connecting element. This opens up creative possibilities, from light gymnastic exercises to coordination-intensive strength training in combination with PHYSIO STIXX and dumbbells.

5 training modules and storage space in a minimal area

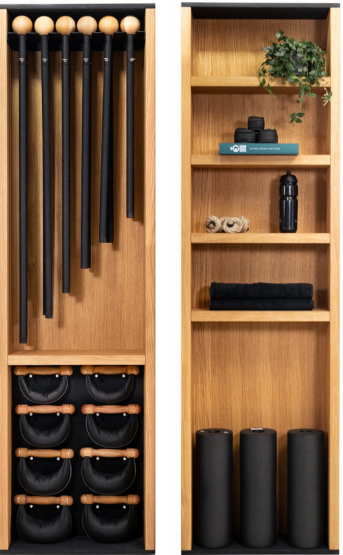

The modules:

- Universal rehab cable pulley
- The combination cable pulley machine with lat pulldown
- The multifunctional PHYSIO STIXX
- The classic – our wall bars
- Simply beautiful: the kettlebell-style dumbbell set
- Five shelves for small equipment and storage

PHYSIO STIXX

The multifunctional physio magic wand for shoulder, back, and gymnastics exercises. Ideal for KGG shoulder exercises in combination with the cable pull.

THE SHELF

Everything at your fingertips – this is the perfect place to store small items for treatment and training.

The centerpiece of the Physio Wall: two cable pulleys for differentiated training therapy.
